

Wisconsin Department of Workforce Development Office of Economic Advisors

<http://dwd.wisconsin.gov/oea>

The Office of Economic Advisors assists economic data users to better understand the relationships between labor markets and other economic and demographic specifics. The Office helps users interpret labor force data and focus on the issues and trends influencing employment growth in the State of Wisconsin and in concert with Governor Jim Doyle's "Grow Wisconsin" plan.

The office publishes monthly and annual reports that provide an overview of county and state trends. These include the Data Dashboard, County Workforce Profiles, and state and regional Employment Projections.
