Completed Weeks of Unemployment estimates the number of insured workers unemployed in a week. It is determined by adding the Continued Claims and those claiming Out-of-State benefits through Wisconsin. It only counts those receiving State funded unemployment insurance and not those receiving special unemployment assistance or benefits for ex-servicemen or Federal employees.

The Insured Unemployment Rate measures only the joblessness among those workers covered by the State Unemployment Insurance Law who are receiving State funded benefits. The IUR is not a "Wisconsin unemployment rate". Some workers are not covered by the State Program.

The IUR is determined by dividing the Completed Weeks of Unemployment by Wisconsin's average monthly covered employment (2,651,170) for the twelve month period ending June 30, 2012.
