Removal of the ASSET Economic Self-Sufficiency (ESS) Calculator

In the coming weeks, DWD-DET will be removing the Economic Self-Sufficiency (ESS) Calculator from ASSET and it will only be available on CEPT.

This is critical information for ASSET users who work with the WIOA Title I Adult and Dislocated Worker Programs, which require the use of the ESS Calculator, but the ESS Calculator is also a useful tool for other program areas.

If you do not have access to the CEPT application, you will need to complete a [DETS-10-e form](#) to request access.
