ASSET Changes Implemented

The following changes to ASSET were implemented on June 4, 2019:

1) Addition of the Wisconsin Summer Youth Program (Previously Milwaukee Summer Youth Program)

A checkbox has been added to the Title 1 Youth tab for staff to indicate those customers who are only participating in the Wisconsin Summer Youth Program:

The screenshot shows the 'Title 1 Youth Program Information' form. At the top, there are three tabs: 'General Program Summary', 'Title 1', and 'Youth'. The 'Youth' tab is selected. Below the tabs, the form is titled 'Title 1 Youth Program Information:'. There are several fields and a checkbox. The checkbox 'Wisconsin Summer Youth Only' is checked and highlighted in yellow. Below it, there are fields for 'Youth Begin Date' (05/29/2019), 'Date of First Youth Service', 'Youth End Date', 'Age at Youth Entry (Calculated on Save): 20', and 'Age at Date of First Youth Service'. Each date field has a '[mm/dd/yyyy]' placeholder and a 'Set As Today' button.

Field	Value	Placeholder	Action
* Youth Begin Date:	05/29/2019	[mm/dd/yyyy]	Set As Today
Date of First Youth Service:		[mm/dd/yyyy]	Set As Today
Youth End Date:		[mm/dd/yyyy]	Set As Today
Age at Youth Entry (Calculated on Save):	20		
Age at Date of First Youth Service:			

When this checkbox is checked, some of the required field validations for Title 1 Youth program are relaxed to collect only the information needed for the Wisconsin Summer Youth program. Additionally, the prerequisite Youth services are not required for these customers unless/until they become co-enrolled in Title 1 Youth program.

Service funding sources and contract IDs are limited.

...

2) Production Fixes

- Staff reported system error when associating a username to a PIN. This has been resolved.
- Staff were encountering system error when adding Youth services. This has been resolved.
- Staff reported the Youth 5% checkbox was not showing up in Manage Programs Printable Version (all tabs). This has been corrected.

3) Removed Fields no longer in use

- Dislocated Worker (Manage Programs): The highlighted fields are no longer used so they were removed:
