ASSET Changes Implemented

The following changes to ASSET were implemented on September 09, 2019.

The ASSET ITA Program Lookup has been modified to accommodate the upcoming changes to the ETPL. "Version 1" is the current ETPL and should continue to be used until otherwise directed by DWD. "Version 2" is for the new ETPL, which will become available in the next few months.

The screenshot shows a web interface titled "ASSET - ITA Program Lookup". Below the title bar, a message states: "The ETPL is currently in transition. Please select Version 1 below. DWD will inform staff when to begin selecting Version 2." Below this message, there is a label "* ITA Version:" followed by a dropdown menu. The dropdown menu is currently open, showing three options: "Select" (the selected option), "Version-1", and "Version-2".
