### ASSET Changes Implemented

A fix to ASSET Youth services was needed after the most recent ASSET update and was deployed on October 31, 2019.

The issues addressed:

- 1) In some instances, when career planners tried to add a service beyond the 3 pre-enrollment services, they saw a validation that they needed to add the pre-enrollment services when they had already been added:

A screenshot of a web form with a light yellow background. At the top, a red error message reads: "• Eligibility Determination, Individual Service Strategy, and Objective Assessment services must be completed before this service can be saved." Below this, the form is divided into two columns. The left column contains labels: "Program Name:", "Program Area:", "Service Information", "Service Name:", and "Service Category:". The right column contains the corresponding values: "Title 1", "Youth", "Alternative Secondary School or Dropout Recovery Services", and "Youth Program Elements".

- 2) In another instance the funding source appears as "Invalid" for existing services. This is due to updated services, and system will still allow user to save records with this.

A screenshot of a web form showing a "Funding Source:" label followed by a dropdown menu. The dropdown menu is open, showing the selected option as "WIOA Title 1B Youth [INVALID]" with a downward arrow icon.

There are still problems with Webi reports, and the team is working on fixing those.

If you experience any other issues please report them to [DWD DL DET ASSET](mailto:DETASSET@dwd.wisconsin.gov) (DETASSET@dwd.wisconsin.gov)
