

ASSET Technical Bulletin

September 10, 2021

The following ASSET system changes will be implemented on **Monday, September 13th, 2021** at 6:30am.

Address Verification

The date that an address is verified on a customer record will now be recorded behind the scenes.

Customer Search

The list of previously-searched customers displayed at the bottom of the Customer Search page has now been split into two lists: Previously Searched Assigned Customers and Previously Searched Unassigned Customers. Both lists will display up to 10 results at a time, with the ability to page through previous searches in each list. The results are displayed with the most recently accessed customer record at the top.
