

ASSET Changes - went to Production on December 8, 2022

Document Management

- Document Type is now visible for most confidential documents so that Career Planner can keep track of what they have uploaded. (Exceptions are Pregnant/Parenting Documentation, Record of Disability or VA Service-Connected Disability Letter.)

Case Assignment

- Fixed the issue of duplicate case assignments being created that were causing system errors when staff accessed the affected PINs.
- Fixed the issue with paging not working properly on the Customer Case Team page:

[Home](#) / [Customer Search](#) / [Customer Details](#) / [Case Team](#)

Customer Case Team

Case Team Status:
You are not currently assigned to the Case Team for this customer. Joining the Case Team is a recorded event, as is any Case Team member action on behalf of the customer.

[Join Case Team - Temporary](#) [Join Case Team - Ongoing](#)

Staff	Purpose	Start Date	End Date	Action
Sharma, Wish1	Career Planning	01/07/2022	01/07/2022	Remove
Powell, Rebecca	Staff Request	12/14/2021	04/15/2022	
Powell, Rebecca	Career Planning	12/01/2022	12/05/2022	
Powell, Rebecca	Technical Assistance	04/26/2022	12/01/2022

14 row(s) found.

Services

- Fixed the issue of focus not being retained on system post-back when changing staff name and/or office number on services. Now Career Planner will not have to scroll back down from top of page repeatedly to make these updates.

System Error Screen Correction

- Correction was made to the system error screen directing user to email DETAppsSupport, so that ASSET users can get issues handled more efficiently by IT staff:

Warning

System Error

We could not complete your request. Please select a link on the menu tree to go to another page. If the problem persists, contact the DWD DL DET Apps Support DETAppsSupport@dwd.wisconsin.gov

Please note this exact time to assist in troubleshooting: 12/16/2022 2:52:04 PM

TAA Financials

- The Purchase Order Line balance amount now includes all invoices (unless they are in void status) so the TAA Career Planner knows how much is remaining.
- The Supplier ID field automatically now adds leading zeros so the TAA Career Planner does not have to type them when entering an invoice.
- TAA Financials Change Order Alerts were fixed.

SAE 2020 & ASE program records

- Made a change to the SAE 2020 & ASE program records so that there are no longer WIPS errors for the Long-Term Unemployed question.

RESEA

- RESEA users now see a list of customers that are scheduled into RESEA sessions.
- RESEA users are navigated to the RESEA Search Screen after creating or updating a session.

TESSA Web service change

- TESSA webservices were updated so staff using TESSA can access their ASSET caseloads easier.
