ASSET Modernization

Several areas in ASSET will soon be updated or added with a new, modern look and feel.

A training video titled ASSET Modernization has been added to the DET Apps webpage. Please take time to watch the video to learn all of the new features that will soon be available. Also, make sure to read the technical bulletins that are emailed to you when update changes are made to the system.

RES Re-employment Plan was launched to production on 4/24/24 which is accessible by RESEA staff.

Effective 5/15/24, a new menu tree item will be added titled Referrals. A training video will be added to the DET Apps webpage shortly. This new feature is *not* to be used until the policy and procedures have been shared with all staff that use ASSET. Please continue to conduct referrals as you always have. An updated email will be sent when implementation of the Referrals menu tree item will be used.

Stay tuned for future emails on more upcoming changes.

Thank you,

I.T. Coordination
Division of Employment and Training

If you have questions about these changes or experience issues with ASSET, please reach out using the following email address: detAppsSupport@dwd.wisconsin.gov

If you have system enhancement suggestions or requests for changes to ASSET and CEPT, please use the SharePoint site to submit your requests for review by the ASSET Change Management Board.
