Dear Evaluation Committee Members:

This letter is to confirm MasTec Utility Services planned participation in the SOFTEC Education Heavy Equipment Operator training program to be operated by SOFTEC Education, Inc. MasTec Utility Services has determined there is a need for this training program due to lack of qualified applicants in the Siren, WI area. We are looking for candidates with training that SOFTEC provides. Our Company will commit to hiring up to 10 newly trained workers that successfully complete the SOFTEC training at an average wage of \$18.00/hr plus benefits. Please notes all offers are contingent upon successful drug screen and background check and all candidates must meet minimum job qualifications.

Kind Regards,
MasTec Manager
Don Nyren
