

**ABOUT THE PROGRAM**

The Associate of Science Degree Transfer Program serves students who intend to transfer to a four-year university. The program provides students with an excellent foundation to continue in higher education, with an emphasis in math and science, focusing electives on furthering those content areas.

By completing the degree through Lakeshore, students can transfer directly with junior status to Lakeland University, University of Wisconsin Oshkosh, University of Wisconsin Milwaukee or University of Wisconsin Green Bay. Students will have enough flexibility for broad major exploration, regardless of a transfer destination.

**PROGRAM OUTCOMES**

- Develop critical thinking skills to pose questions, process information, and make decisions.
- Recognize the contributions of diverse cultures to the improvement of the human condition in a global society.
- Compute and analyze data using mathematical, statistical, and logical methods to solve problems.
- Use the scientific method within the natural science environment.
- Analyze and apply social science theories.
- Communicate by:
  - Listening actively.
  - Reading and comprehending written materials in the content area.
  - Researching, synthesizing, and organizing information.
