Re: Notice of Business Closing

Dear Members of the Dislocated Worker Unit:

GE Distributed Power, Inc. (formerly Dresser, Inc. d.b.a. Waukesha Gas Engines), a business unit of General Electric Corporation (collectively "the Company") will be permanently closing its facility at 1101 W St. Paul Avenue, Waukesha, Wisconsin. The closure has been prompted by the Company's decision to shut down manufacturing at that location.

This action is expected to result in the permanent elimination of 236 employees—31 salary and 205 hourly positions. The Company expects to begin eliminating positions on August 31, 2018 and will continue in phases until complete closure on April 30, 2019.

The hourly employees are represented by the International Association of Machinists and Aerospace Workers, AFL-CIO and its District No. 10 (collectively "the Union"). The representative of this Union is Scott Schmidt, Chairman. Mr. Schmidt is located at 1101 W St. Paul Ave., Waukesha, WI 53188. Interplant bumping rights exist with respect to the elimination of the represented positions.

Attached is a list of job titles with the number affected within each job title for the salaried and hourly workers. Please note that due to interplant bumping rights and/or early retirement elections, it is impossible to predict with certainty which represented employees will ultimately be affected or the exact order in which individual employees will be separated.

The company will ensure that employees will be paid all earned wages and agreed upon benefits at the time of their termination.

If you need additional information please contact Casilynn Hansen by mail at 1101 W St. Paul Ave., Waukesha, WI 53188 or phone at 262-650-5735.

Sincerely,

Casilynn Hansen
Human Resources Manager
