Re: Plant closure of H&S Manufacturing in Clintonville WI

To whom it may concern:

On Monday February 5, 2024, H&S Manufacturing announced to their employees the intended closure of its Clintonville, WI location to occur in late 2024. On the day of the announcement, all employees were given a letter about the closure. Immediately following the announcement, one-on-one meetings were held with employees to discuss what their future with H&S Manufacturing would be, whether it was letting them know that their employment would end in 60 days, if we needed them to stay longer than 60 days, a relocation option, or a retention bonus. All employees have been fully notified of the terms of their employment and the timing of the plant closure.

Number of affected employees: 42

Location: N11651 HWY 22
Clintonville, WI 54929

Please contact me directly at bhasenohrl@hsmfgco.com if you have any further questions regarding H&S Manufacturing Clintonville location. Thank you.

Sincerely,

Buffy Hasenohrl
Human Resource Manager
