

Self-Employment FICO Score Request

DVR is requesting a copy of your FICO score as part of the DVR self-employment process. A person's FICO score impacts their ability to obtain financing and/or access to sufficient resources to meet future business and personal financial obligations.

The FICO score, along with other information provided, will assist DVR in determining if they can assist you in pursuing your occupational goal through self-employment. Your counselor will explain how your score will be used in completing the Business Assessment Scale© and the impact a score can have on DVR's ability to assist you with pursuing self-employment.

Providing your score is voluntary. However, if not provided, DVR will not be able to assist you in pursuing your occupational goal through self-employment.

You do not need to obtain a FICO score, if you have obtained your credit score within the past three months and can provide DVR with a copy of the score.
