

# SIDES

*Simplify and streamline responses to Unemployment Insurance information requests with SIDES.*

Employers and Employer Service Providers (ESP) can use SIDES to respond to the following Wisconsin forms electronically:

- Separation Notice (Form UCB-16)
- Determination (Form UCB-20)
- Computation of Unemployment Insurance Benefits (Form UCB-701)
- Wage Audit Forms (UCF-350-4, UCF-17275, and UCF-17275-3)

## Custom Software

Custom SIDES software integrates with your own IT systems.

## Standardized

Requests use a standardized format, providing consistency from state to state.

## Paperless

Avoid mail. Eligible information requests are sent digitally.

## What is SIDES?

SIDES is an integrated computer-to-computer interface, not a website. It is best for employers and ESPs that:

- Receive a large volume of annual UI claims;
- Operate in multiple states; or
- Want to automate claims and reduce data entry.

SIDES is available for free, though there will be system development costs to integrate SIDES with your company's existing IT systems.
