## DWD RELEASES INFORMATION ON UNEMPLOYMENT DATA

MADISON – The Department of Workforce Development (DWD) today released information related to the total number of unemployment calls received, applications filed, claims processed, and monies distributed in Wisconsin as of the week ending July 18, 2020.

The Department announced, based on preliminary numbers, there were **24,838 initial applications** filed the week ending **July 18**. Of those new applications, **1,271 applications** are from claimants who have exhausted their UI benefits and applied for PEUC. This is compared to **28,661 in initial applications** the week prior (**week ending July 11**).

Unemployment Insurance is a joint state-federal program that provides benefits to eligible workers. Each state administers a separate UI program with state-specific laws and rules, but states must also follow the same guidelines established by federal law. Any answer given on a claim raising a question regarding a person's eligibility must be fully investigated before benefits may be paid; this is referred to as the adjudication process.

Adjudication is the investigation and resolution of eligibility issues raised on unemployment insurance claims. Adjudication is a manual process that requires interested parties be provided due notice to respond to the eligibility issue. Eligibility issues arise from several places including the initial claim, weekly claim, employer contact, claimant contact, and tips from the public. Under normal conditions, adjudication typically takes 21 days to process.

**Regular Unemployment Insurance (UI) benefits:** If you're out of work through no fault of your own, and you've worked for a covered employer (an employer who pays UI tax) in the last 18 months, you may be eligible for and should apply for regular UI benefits. Regular UI is available for up to 26 weeks (dependent upon an individual's specific situation).

**Pandemic Emergency Unemployment Compensation (PEUC):** A temporary program that provides up to 13 additional weeks of payments to individuals who have exhausted their regular UI benefits.

**Extended Benefits (EB):** A temporary program that provides up to 13 additional weeks of payments to individuals who have exhausted regular UI and PEUC.

**Pandemic Unemployment Assistance (PUA):** If you are not eligible for regular UI, you may be eligible for PUA. This is a temporary federal program that provides up to 39 weeks of unemployment benefits to individuals who are not eligible for regular UI such as:

- Individuals who are self-employed;
- Certain independent contractors;
- Individuals with limited recent work history; and
- Other workers not covered by regular UI.

**Federal Pandemic Unemployment Compensation (FPUC):** A temporary emergency increase of \$600 per week in unemployment benefits. FPUC provides an additional payment to individuals who are collecting regular UI, PEUC, EB, or PUA. It is automatically added to the weekly benefit rate. **NOTE: the last payable week for FPUC is the week ending July 25, 2020.**

"The Department is making substantial progress in processing UI claims," DWD Secretary Caleb Frostman said. "Between the additional staff from state of Wisconsin employees and the vendors brought on by DWD, the Department is answering almost every call and processing claims more efficiently—with over 93% of claims filed between March 15 and May 2 resolved."

### UNEMPLOYMENT BENEFITS CLAIMS STATUS

Approximately 449,200 claimants have been paid over \$2.8 billion since March 15.

The Weekly Claims in Process column in the table below represents approximately 138,485 unique claimants with around 232,805 issues requiring adjudication. A claimant could have one issue or many holding up a week or many weeks. DWD is prioritizing all adjudication work by earliest date to pay the claimants who have been waiting the longest first.
